

All NEMO Committee Public consultation: 3 January 2022

## Public consultation pursuant to Art. 12 of Commission Regulation (EU) 1222/2015 on products that can be taken into account in the SIDC

**Consultation Overview:** The products that can be taken into account by NEMOs in single intraday coupling (provided under Art. 53 of CACM) were last approved by means of decision No 05/2020 of the European Union Agency for the Cooperation of Energy Regulators (ACER) on 30 January 2020. According to Art. 53.4, “by two years after the entry into force of CACM and in every second subsequent year”, all NEMOs shall consult, in accordance with Article 12, the products that can be taken into account in the SIDC.

After review there are no proposed amendments to the products and NEMOs are therefore proposing not to amend the content of the current list of SIDC products.

This is a joint consultation from all NEMOs.

**Why We Are Consulting:** CACM Terms, Conditions or Methodologies needs to be submitted for public consultation for at least one month (pursuant to art 12 of CACM) in order to take into account stakeholders’ views on the proposal.
