

PRESS RELEASE

The electricity and gas market agents already have an Insider Information Platform in the Iberian Peninsula

Madrid, 12/23/2020

The electricity and gas market agents already have an Insider Information Platform in the Iberian Peninsula.

OMIE and MIBGAS launch this service in a centralized manner to facilitate agent's compliance with their obligations regarding the publication of insider information, derived from the European regulation on the integrity and transparency of the wholesale energy market¹.

The Insider Information Platform has been approved by the Agency for the Cooperation of Energy Regulators (ACER) as a Regulated Information Service of that Agency, which guarantees users of this platform compliance with the aforementioned European Regulations and the consequent ACER guidelines.

With this platform, OMIE and MIBGAS are taking a further step in their commitment to helping the Iberian Energy Market continue to be one of the most transparent markets in the EU.

The Iberian Insider Information Platform is available at:
