

NOTICE

**OMIE and MIBGAS are putting the Iberian Inside Information Platform (IIP) into production for the Electricity and Gas Markets**

Madrid, 22 Dec 2020

OMIE and MIBGAS have put the Iberian Inside Information Platform into production. This platform will allow Iberian market agents in both the electricity and gas sectors to comply with the obligations outlined in article 4 of the *European Regulation on Wholesale Energy Market Integrity and Transparency*.

The Iberian Inside Information Platform is reported to have received approval for phase 1 and preliminary approval for phase 2 from ACER. This will allow all messages sent through it to be considered in compliance with the regulation.
