### **DECOUPLING “IN ADVANCE” OF MIBEL FROM THE FIRST INTRADAY AUCTION DUE TO THE DELAY PUBLICATION OF “PROGRAMA DIARIO VIABLE (PDVP)” TO MARKET PARTICIPANTS**

---

26– January – 2026

## **INSTRUCTION 1/2026**

### **1. PREAMBLE**

The purpose of this Instruction is to detail the operational procedure to be applied in the event that any MIBEL system operator foresees a delay in the publication of "*Programa Diario Viable Provisional (PDVP/PT)*", schedule resulting from the analysis of technical constraints, to allow for the application of the European decoupling in-advance procedure.

### **2. DECOUPLING IN-ADVANCE OF MIBEL FROM THE FIRST INTRADAY AUCTION IDA 1**

In the exceptional event that any system operator from MIBEL foresees a delay in publication of the PDVP/PT to the market operator, such prevents the market operator from complying with the provisions set out in "*Capítulo VIII Mercado Intradiario de subastas*," *second paragraph of rule "Regla 38.4.1.1 Verificación del estado de la sesión"* (included in Annex 1 of this Instruction), the corresponding system operator shall send the market operator, as soon as it becomes aware of the situation and in any case before **14:25**, the following message:

*"Les informamos que se prevé que el PDVP de mañana DD/MM/YY no va a poder ser publicado antes de las 14:54"*

In such a situation, the market operator shall make its best efforts to request from the coordinator and before the deadline established in the European operational procedures (IDA\_NEMO\_EXC\_02: Partial Decoupling), the decoupling in advance of the MIBEL in IDA1. Currently, this deadline is set at 14:30.

In case of MIBEL decoupling, it shall not participate in the first intraday auction.

If the message is received after the indicated time or if the application of the procedure proves impossible, the session shall continue in accordance with the market rules.
